

ONLINE REPORTING OF CRIME

Dallas has adopted the reporting of certain crimes [on-line](#). Dallas Police Department states that reports filed electronically or by phone will be investigated the same as if given directly to an officer. This change is anticipated to save over 135,000 patrol hours, the equivalent of 65 officers.

For those of us residing in the Prestonwood PID coverage area, there will be no change in our PID police response. The PID will continue to provide the services you are accustomed to. Our PID officer will gladly take and file reports on any crime on your behalf, even though the online reporting is available to you.

Keep in mind that emergencies should always be handled via 911 and/or our PID Officer at 972-333-3441.

The board of the PHA that manages the PID, believes that the changes being implemented by the city of Dallas has further enhanced the value of the PID to those of us living in the Prestonwood neighborhood.
